TRADE AND DEVELOPMENT BOARD
Working Party on the Medium-term Plan
and the Programme Budget
Thirty-ninth session
Geneva, 16–20 September 2002
Item 3 of the provisional agenda

INDICATIVE PLAN OF UNCTAD'S TECHNICAL COOPERATION FOR 2003

Note by the UNCTAD secretariat

1. UNCTAD X, in paragraph 164(vi) of the Bangkok Plan of Action (TD/386), requested the secretariat to submit to member States an "annual indicative plan of technical cooperation programmes".

2. Following this request, the present document includes information on:

(i) Ongoing projects which are expected to continue in 2003;
(ii) Projects proposed by the secretariat with a view to implementing the mandate from UNCTAD X and the Third UN Conference on LDCs, as well as mandates given to UNCTAD by the General Assembly;
(iii) Projects proposed as a result of specific requests received from beneficiaries.

3. For most projects under (ii) and (iii), financial support still needs to be identified.

4. The plan is intended to implement the Technical Cooperation Strategy of UNCTAD adopted by the Board at its fifteenth executive session in June 1997. It is also intended to:

(i) Inform delegations, cooperating organizations and other interested parties of the operational activities that have been approved for the year 2003 and those which the secretariat is proposing for 2003;

GE.*200205*260* LS
ENG

(ii) Facilitate discussions with potential donors on the mobilization of the necessary extrabudgetary resources to implement the plan. Barring exceptional cases, all the secretariat's requests to potential donors for funding will be from among proposals contained in this plan; and

(iii) Serve as the secretariat's monitoring tool.

5. The information contained herein is broken down as follows: country/region, short title and project code. For proposals, the approximate duration/completion dates and budgets in dollars have been added.

6. Inclusion of new proposals (see paragraph 2(ii) and 2(iii) above) is based on one or more of the following considerations:

(i) An explicit request received by the secretariat from a developing country or a country in transition;

(ii) A request for assistance mandated by the General Assembly, the Conference, the Trade and Development Board or a Commission;

(iii) Consistency with the implementation of the UNCTAD X Plan of Action as reflected in the work programme set out in the programme narrative for the UNCTAD programme budget for 2003-2004 (A/56/6 (Sect.11A)).

7. Only projects considered a priority have been included in this version of the plan. Priority is also expected to be assigned to Post-Doha-related technical cooperation activities, as contained in document UNCTAD/RMS/TCS/1 of 5 February 2002.

8. In response to the Bangkok Plan of Action and in particular its paragraph 166, projects included in the plan place particular emphasis on capacity building.

9. Implementation of most of the proposals in the plan is contingent upon the mobilization of additional resources. Moreover, as it is expected that new requests will be made and that existing proposals may be modified, constant adjustments to the plan will be required.

10. The document includes an updated list of ongoing and proposed projects by Divisions and Branches, clearly distinguishing between ongoing and proposed projects. Whenever possible, projects have been clustered by broad areas of activity. Introductory narratives, including an indication of objectives and overall strategy in terms of substantive orientation for each division, are also included.

11. Explanations of the country codes used for project numbering are to be found at the end of the document.

12. All references to dollars ($) are to United States dollars.

13. Dates in brackets refer to either year in which project activities will start or to full project duration.

I. DIVISION ON GLOBALIZATION AND DEVELOPMENT STRATEGIES

14. The DMFAS Programme provides technical assistance in debt management to developing countries and economies in transition. The central component of this assistance is a computerized system for debt management, the Debt Management and Financial Analysis System (DMFAS). DMFAS is designed to strengthen the technical capacity of developing countries to record and monitor their external debt. The technical assistance provided includes advice on institutional, legal and administrative issues, and training in DMFAS and debt management. DMFAS is usually installed in Central Banks and/or Ministries of Finance. Installation, training and updating of DMFAS is being carried out at present in almost 60 countries. The core staff is responsible for the development and maintenance of DMFAS in Geneva, creating huge economies of scale for the beneficiary countries. Consultants who work for short periods on particular projects and chief technical advisors who work in the field for the implementation of projects supplement the core staff.

Country / Region	*Short title / Project number*
Macro-economic and development policies	
Ongoing	
Interregional	Technical support to the Intergovernmental Group of 24 on International Monetary Affairs (INT/0T/0AL)
Interregional	The final phase: publication and dissemination of experts' papers (RAF/97/A28)

Yugoslavia	Installation of DMFAS in Montenegro (2003) $161 472
Interregional	Strengthening the debt management capacity of developing countries (2003-2006) $10 870 573[2]

[2] DMFAS Trust Fund (Support to the Central Team). Budget for the period 2003-2006.

II. DIVISION ON INTERNATIONAL TRADE IN GOODS AND SERVICES, AND COMMODITIES

15. Projects proposed under this heading take into account recommendations of the Bangkok Plan of Action related to support for capacity building in developing countries so as to facilitate their effective integration into the multilateral trading system. This includes human resource development and institutional capacity building with regard to the multilateral trading system (on the built-in agenda and other possible areas of negotiations, existing and emerging trade rules and their implications for development); trade in services; regional integration and the multilateral trading system; competition issues; trade and environment; and commodities issues.

16. Activities of the proposed projects seek to enhance effective participation of developing countries and countries in transition in the multilateral regional and subregional trade negotiations and their enhanced participation in WTO itself. Projects also seek to assist countries acceding to WTO. The proposed projects, most of which are linked to the secretariat's analytical work, aim at strengthening capacities: to formulate and implement policies that derive maximum benefits from international trade; to increase the contribution of the commodity sectors to sustainable development, particularly supply capacities, focusing on diversification and more effective use of modern commodity price management instruments; increased capacity to deal with competition laws and policies and consumer protection issues and assist developing countries to better evaluate the implementation of closer multilateral cooperation in this area; and increased ability to develop mutually supportive trade, environment and development policies.

17. Proposals under this section exclude those contained in "Capacity building and technical cooperation for developing countries, especially LDCs, and economies in transition in support of their participation in the WTO Doha Work Programme" (UNCTAD/RMS/TCS/1).

Country / Region	*Short title / Project number*
Trade negotiations and commercial diplomacy	
Ongoing	
Russian Federation	Integration into the international trading system and WTO accession (RUS/00/009)
Interregional	UNCTAD Trust Fund for WTO accessions (INT/99/A50)
Interregional	Enhancing capacity building of developing countries and countries with economies in transition for effective integration in the multilateral trading system (ROA-2001-2072-6875) (Development Account)
Proposed	
Interregional	UNCTAD Trust Fund for WTO accessions, Phase II (2003-2005) $900 000
Trade analysis	
Ongoing	
Interregional	Computerized Trade Data (INT/9X/00J ex INT/90/A07)
Interregional	Agricultural Trade Policy Simulation Model (INT/9X/8A7 ex INT/98/A60)
Interregional	Increasing developing country representation in AMAD (INT/0T/1AT)
Proposed	
Interregional	Capacity building on analysing the developmental implications of special and differential treatment to assist developing countries in their integration into, and deriving full benefits from, the multilateral trading system (2003-2005) $150 000

Interregional	Capacity building on analysing the development dimension and the developmental impacts of the multilateral trading system and trade policy in a globalized world (2003-2005) $300 000
Interregional	Capacity building on analysing the developmental dimension in trade-related aspects of regional economic integration (2003-2005) $300 000
Interregional	Expanding and Broadening the Agricultural Market Access Database (2003-2004) $113 000
Interregional	Developing a user-friendly database front-end for AMAD (2003) $55 000

Commodities

Ongoing

Interregional	Projet sur l'intelligence économique et le renforcement des services informationnels a forte valeur ajoutée dans le domaine des produits de base (Phase II) (INT/99/A27)
Interregional	Capacity building and policy-networking for sustainable resource- based development (ROA-2001-2062-6875) Development Account
Interregional	Diversification and commodity-based development (ROA-2001-2076 6875) (Development Account)
Interregional	Book on organic fruit and vegetable production in the tropics and international trade (INT/0T/1CN)

Proposed

Nigeria	Support to Nigerian horticulture sector in the context of national non-traditional agricultural export programme (2003-2004) $250 000
Palestinian Authority	Commodity procurement and finance for strategic food commodities (2003-2004) $150 000
Regional Africa	Training and capacity building for improving oil and gas trade and finance in Africa (2003) $1 000 000
Regional Africa	Capacity building for fisheries exports from Africa (SADC and ECOWAS) (2003) $200 000
Regional Africa	Enhancing regional cooperation in Africa for value addition to commodities (2003-2004) $300 000
Interregional	Diversification policies and enhancing competitiveness for commodity dependent countries in the new international trading framework (2003-2005) $800 000
Interregional	Entry to global supply chains by commodity dependent developing countries: fresh and processed products (2003-2005) $500 000
Interregional	Capacity building for commodity exporters in developing countries: meeting standards set by Governments and importers (2003-2005) $350 000
Interregional	Diversification and development in mining dependent regions of developing countries (2003-2004) $ 250 000
Interregional	Commodity risk management and finance (2003-2004) $280 000
Interregional	Enhancing the role of commodities exchanges in liberalized agricultural sector (2003-2005) $100 000
Interregional	Diversification in single commodity exporters and small island economies (2003-2005) $500 000

Trade, environment and development

Ongoing

Interregional	Capacity building in LDCs on trade, environment and development (2003-2005) $400 000
Interregional	Capacity building on traditional knowledge, trade and development (2003-2006) $900 000
Interregional	Trade and investment aspects of climate change regime (2003-2004) $400 000
Interregional	Supporting nationa' strategies in CG-11 and LDC countries to implement the Kyoto Protocol (2003-2005) $350 000
Interregional	Biotrade Facilitation Programme (UNCTAD/ITC) - implementation phase (2003-2005) $2 500 000
Interregional	Biotrade Initiative in other regions (2003-2004) $200 000
Interregional	Assisting developing countries to participate effectively in WTO negotiations and discussions on environmental issues (UNCTAD/UNEP/FIELD/South Centre/ Commonwealth Secretariat) (2003-2006) $2 300 000 (UNCTAD component 700 000)

Competition law and policy and consumer protection

Ongoing

Regional Africa	Institutional and capacity building in competition law and policy for African countries (RAF/97/A41)
Interregional	Training programme on RBPs (competition policies) (INT/86/A01)
Interregional	Strengthening competition policy and legislation in developing countries (INT/96/A19)
Interregional	Institutional and capacity building in the area of competition law (INT/OT/1CO)
Interregional	Institutional Capacity Building for Competition Law and Policy (2003-ROA-1054-0033-2076-6875)

Proposed

Cuba	Strengthening the capacity of Cuban public institutions to foster Cuban economic growth and its insertion into the world economy (Component 1) (2003) $100 000
Regional Latin America	Formulation and implementation of competition law and policy in Latin American and the Caribbean countries (2003) $500 000

III. DIVISION ON INVESTMENT, TECHNOLOGY AND ENTERPRISE DEVELOPMENT

18. Projects proposed under this heading aim at supporting the research and policy analysis work on issues relative to the benefits to be derived from international investment and related financial flows, including their impact on development, with a view to creating an environment in which foreign investment and international business can thrive.

19. Technical cooperation activities aim at enhancing the capacity of developing countries to attract and benefit from FDI, formulate and implement investment policies and strategies, including in the area of promotion, and participate effectively in negotiations on investment-related issues.

20. The projects also aim at strengthening technological capacities and fostering the development of enterprises by enhancing their competitiveness and stimulating employment, investment, technology transfer and exports through the development of indigenous entrepreneurs and innovative small and medium-sized enterprises. Assistance is also provided in formulating and implementing accounting and auditing laws and standards.

Proposed	
Cuba	Strengthening the capacity of Cuban public institutions to foster Cuban economic growth and its insertion into the world economy: Assistance in the development of Government Accounting System (Component 4) (2003-2005) $600 000
Regional Latin America	EMPRETEC: Strengthening networking between Latin America and Germany by creation of distribution and facilitation center for Latin American SMEs in Kreis Neuss (Germany). Assessment and assistance to install and operate distribution and facilitation center located in Germany providing Latin American firms with logistics support for their commercial operations. (2003-2004) $120 000
Regional Latin America	EMPRETEC in Central America and the Caribbean (2003-2006) $500 000
Interregional	Strengthening EMPRETEC via workshops and re-training trainers and networking among directors (2003-2004) $136 000
Interregional	EMPRETEC : Installation of management information system benchmarking of national centres. (2003-2004) $130 000
Interregional	EMPRETEC: Promotion and installation of the programme INICIATIVA: Assistance to large public enterprises for managerial and productivity upgrading (2003-2005) $1 175 000
Interregional	EMPRETEC: Training workshops on e-commerce strategies and solutions to help SMEs benefit from business opportunities in e-commerce (2003-2004) $60 000
Interregional	EMPRETEC: development of training products for small-scale fruit and vegetable processing to meet international standards (2003-2004) $150 000
Interregional	Strengthening women entrepreneurs in LDCs in Africa. Develop gender sensitive training and business services for women entrepreneurs (2003-2004) $230 000
Interregional	Business linkages between large and small enterprises to build local productive capacity and enhance access to markets, finance and technology (2003-2005) $350 000
Interregional	Entrepreneurship development for African LDCs-implementation of national EMPRETEC programmes in anglophone countries ($2 500 000), francophone countries ($3 000 000) and lusophone countries ($2 500 000) (2003-2007) $8 000 000
Interregional	Capacity building in developing countries and economies in transition in areas of use of international accounting and auditing standards and corporate governance. (The purpose of this project is to assist countries to implement international accounting and auditing standards and guidelines) (2003-2005) $500 000
Interregional	Science and technology diplomacy initiative to train diplomats in science and technology issues raised in international fora such as WTO and negotiate protocols and treaties based on accurate objective and informed policy advice (2003-2004) $200 000

III. DIVISION FOR SERVICES INFRASTRUCTURE FOR DEVELOPMENT AND TRADE EFFICIENCY

21. Projects proposed under this heading aim at assisting developing countries to improve their competitiveness in international trade by achieving greater efficiency in their trade-supporting services infrastructure sectors in areas such as:

(a) Trade logistics/Transport and trade facilitation: help set up the necessary institutional, legal and operational environment for the modernization of national transport legislation and regulations and improve the efficiency of transit transport operations; provision and installation of the Advance Cargo Information System (ACIS), a transport management tool which tracks cargo and transport equipment on rail, at ports and on rivers and generates transport statistics; provision of advice and operational support for port management;

(b) Customs: support the modernization and reform of customs through the installation of ASYCUDA, a computerized customs management system that streamlines the customs clearance process;

(c) Information and training: provision and implementation of structured training programmes seeking to enhance human resources for international trade in goods and services at the policy and operational level;

(d) Electronic commerce: provision of advice and training programmes on the use of information technologies and electronic data interchange with a view to improving access for traders in developing countries to trade-related information and global networks and promote the use of e-commerce.

(e) Activities concerning Trade Points in accordance with the Trade Point Programme strategy.

Regional Asia	Workshop on economic, fiscal and legal aspects of e-commerce (2003-2004) $150 000
Regional Eastern Europe and CIS	Conference on e-commerce development (2003) $50 000
Regional Latin America	Workshop on economic, fiscal and legal aspects of e-commerce (2003) $150 000
Interregional	Workshops on economic, fiscal and legal aspects of e-commerce (2003) $300 000
Interregional	Developing training course on e-commerce legal issues (2003-2004) $50 000
Interregional	Technical assistance and capacity building in developing countries in the area of electronic commerce (2003-2004) $1 030 000

IV. SPECIAL PROGRAMME ON THE LEAST DEVELOPED COUNTRIES LANDLOCKED AND ISLAND DEVELOPING STATES

22. The objective of technical cooperation activities under this heading is to facilitate the development efforts of LDCs, landlocked developing countries (LLDCs) and small island developing States (SIDS) and to contribute to enhancing their integration in the world economy in the areas within UNCTAD's mandate.

23. Technical assistance includes activities carried out in accordance with the implementation of the Programme of Action for the Least Developed Countries for the Decade 2001-2010, as well as contributions to the implementation of the Integrated Framework for Trade-related Technical Assistance to LDCs, the Global Framework for Transit Cooperation between LLDCs and Transit Developing countries and the Donor Community, and the Programme of Action for the Sustainable Development of SIDS (Barbados Programme of Action).

24. Activities are consistent with the UNCTAD Plan of Action adopted at its tenth session (paragraph 164 (iii), GA Resolution A/56/569 (paragraph 3)). They take into account the Doha Work Programme, the recommendations of the Mid-term review of UNCTAD's Plan of Action, and the transfer of resources to the new Office of the High Representative for LDCs, LLDCs and SIDS in New York.

25. The activities are organized around the following two main pillars:

(a) *Interdivisional coordination* of UNCTAD's technical cooperation for LDCs, LLDCs and SIDS, with particular reference to enhancing the efficiency of technical cooperation provided by UNCTAD Divisions and Programmes;

(b) *Specific projects implemented by the special programme* for these groups of countries focused on improving human and institutional capacities in areas within UNCTAD's competence.

Interdivisional coordination

26. These activities that are treated as cross-cutting and mainstreamed in the sectoral work undertaken in different Divisions or Programmes in UNCTAD are implemented through LDC focal points. The overall coordination provided by the Special Programme serves the objective of securing consolidated and coordinated UNCTAD responses to the technical assistance needs of LDCs, LLDCs and SIDS. It also seeks to synchronize implementation, inside and outside UNCTAD, in a manner that maximizes synergy and effectiveness. The Special Programme is the main instrument of UNCTAD in the implementation of the Integrated Framework for Trade-related Technical Assistance (IF).

27. In this context, the Special Programme undertakes the following activities:

- Participating, together with other core agencies, in the follow-up and monitoring of the implementation of the IF Pilot scheme.
- Providing inputs in the preparation of the Diagnostic Trade Integration Studies (DTIS) and participating in national workshops for the consideration of the recommendations and findings of the DTIS;
- Preparing project proposals on trade-related technical assistance based on the endorsed action plan from DTIS.

Country / Region	*Short title / Project number*
Least Developed Countries	
Ongoing	
Interregional	Trust Fund for Least Developed Countries: Core Project (INT/97/A09)
Proposed	
Interregional	Trust Fund for Least Developed Countries for activities in support of LDC III: Core Project. (2003) $5 000 000
Interregional	Enhancing the capacity of LDCs to draw greater benefits from their LDC status (trade, financing and technical cooperation including Integrated Framework) (2003-2004) $250 000
Interregional	Donor performance monitoring indicators at recipient country level (2003-2004) $200 000
Interregional	Analysis of the impact of globalization and liberalization policies on the social and economic progress of LDCs: Responses to policy reforms and adequacy of international support measures (2003-2005) $150 000
Land-locked Developing Countries	
Transit transport regulatory framework	
Ongoing	
Regional South-East Asia	Specific consultative meeting on the transit transport systems of the Lao People's Democratic Republic (LAO/00/004)
Proposed	
Regional North East Asia	Transit Traffic Framework Agreement between the Governments of the People's Republic of China, Mongolia and the Russian Federation, budget to be determined
Regional Eastern Africa	Review and revision of the Northern Corridor Transit Agreement (2003-2005) $150 000
Interregional	Support to the International Ministerial Meeting of Land-locked and Transit Developing Countries and Donor Countries and International Financial and Development Institutions on Transit Transport Cooperation (2003-2004) budget to be determined
Small Island Developing States	
Proposed	
Interregional	Research and advisory services on the economic vulnerability of SIDS (Involving vulnerability profiles, an expert group meeting on strategies for reducing vulnerability, and a publication/compendium on small Economies) for SIDS (2003-2005) $110 000

V. OTHER TECHNICAL COOPERATION PROGRAMMES

28. In addition to the above projects to be implemented at divisional level, the programmes listed below are proposed for implementation at the cross-divisional level.

Country / Region	*Short title / Project number*
Civil Society	
Ongoing	
Interregional	Civil Society activities – follow-up to UNCTAD X (INT/99/A49; INT/9X/9CC)
Proposed	
Interregional	Preparation for UNCTAD XI. Civil Society dimension: organization/participation of civil society (2003-2005) $100 000
Dispute settlement	
Ongoing	
Interregional	Building Capacity through training in Dispute Settlement in International Trade, Investment and Intellectual Property (2003-ROA-1053-0033-2166-6875) (Development Account)
Interregional	Capacity building in dispute settlement (INT/00/A27)
Proposed	
Interregional	Building capacity through training in dispute settlement in international trade, investment and intellectual property. The proposed project aims at enhancing the permanent capacity of professionals within developing countries to participate more fully in dispute settlement, *inter alia* by introducing specialized courses on the subject at universities and research institutions, and by training of teachers at the local level. Focus will be on dispute settlement in WTO, WIPO, ICSID and UNCITRAL (2003-2005) $500 000
Gender and globalization	
Proposed	
Interregional	The gender impact of globalization - towards new alliances: in response to UNCTAD X (Plan of Action, paras. 8, 9 and 109). The project will analyse, based on a common methodology, the gender impact of globalization at the country level. The operational phase will develop ideas on how to build new alliances between civil society actors and the United Nations in addressing gender imbalances (2003-2005) $791 000
Activities related to the International Institute for Trade and Development (ITD) in Bangkok	
Proposed	
Interregional	The agreement between the Royal Thai authorities and UNCTAD concluded during the tenth session of the Conference envisages a variety of support measures from UNCTAD to the Institute. The ITD was inaugurated in April 2002, and it will be instrumental in the organization of seminars or diverse aspects of international trade and development (2003-2004) $500 000
Implementation of paragraph 166 of the Bangkok Plan of Action	
Ongoing	
Interregional	Capacity building on key issues on the international economic agenda (2003-ROA-1051-0033-2074-6875) (Development Account)
UNCTAD/UNDP global project	
Ongoing	
Regional Africa	Globalization, liberalization and sustainable development (RAF/98/001)
Interregional	Globalization, liberalization and sustainable development (GLO/01/615)
Interregional	Globalization, liberalization and sustainable development (INT/0T/1CK)
Proposed	
Interregional	Enhance the ability of developing countries to better face the challenge of globalization while promoting sustainable human development (Phase II) (2003-2004) $2 000 000
TRIPS and Development	
Ongoing	
Interregional	Capacity building project on TRIPS and Development (2001-2003) (INT/0T/1BH)
